

Operator

JOB DESCRIPTION

- You are responsible for starting up and monitoring your production line.
- Carefully follow the production schedule to ensure that finished products are delivered on time.
- Analyze malfunctions and, in consultation with your team lead, take the appropriate actions.
- Maintain a safe and organized workplace.
- Report irregularities in the installation or production process to the team lead.
- Perform first-line maintenance.

REQUIREMENTS

- Willing to work in shifts (early shift starts at 6 a.m. / late shift starts at 2 p.m.).
- Good command of the Dutch language.
- Stable work history and/or positive references.
- A team player with no physical complaints.
